

Beginner Tips for Drone Photography

READ THE DRONE MANUAL

Familiarize yourself with the features of your drone, the controls and safety precautions.

ABIDE BY LOCAL DRONE LAWS

Every country or region has specific drone laws and regulations, especially around airports. Get to know them!

PRACTICE SAFELY FIRST

Find a wide open space to practice first. Get to know your drone controls and build confidence in a safe area.

SEEK GREAT WEATHER

Fly in good weather conditions as a beginner. This will ensure both safety and better control of your drone.

FLY WITH A SPOTTER

Fly with a friend to keep a second pair of eyes on the drone, while you focus on the controls and footage.
